

Autumn Training Course Programme October - December 2008

The FTMRC is now providing a programme of training courses in traditional hard metals at the new Metal Roof Academy at the Building Crafts College in Stratford, East London.

Using a customised facility incorporating life size rigs and roof models, each course lasts three days and is open to both members and non members of the FTMRC.

The courses are delivered by experienced trainers from the leading European manufacturers of the base metal product and all materials, tools and equipment are provided

Further details are available from the FTMRC (tel) 01342 301627 (fax) 01342 303200 (Email) rwr@ftmrc.co.uk
